#### MISERY WELCOMES COMPANY.

The sympathies of the Daily Pres ever go out to its State contempor gries who suffer from the impac, of the mailed fist and spiked heels of the Danville Register. Not long since this newspaper received a cas tigation from the Register sanctum which it will never forget because we timidly suggested that the Danville Tobacco Board of Trade and the Danville Register were favoring Mr. Thomas F. Ryan's American Tebac co Company, which has been convicted as an outlaw organization by three United States Circuit Court judges when the Danville commercial body sent a delegation to Washington to plead for higher duties on tobacco and the Panville Democratic news paper vehemently defended this

At that time, if this newspape had ever known, it had forgotten that any allusion to Mr. Ryan not altogether fulsome in praise was sur to incur a challenge from the Danville Sir Nigel to ride a tilt for the honor of the Virginia politician and New York financier. The miserable do not relish beta

left in solitude. Hence the Daily Press, while disavowing any dispo sition to rejoice over a contempor ary's misfortune, is nevertheless quite willing to share the consequences of its, own rash acts with a contempomary equally rash. The newspaper referred to is the Richmond Times Martin's visit to Richmond was not strictly confined to the transaction of legal business in the United States

To this asseveration, and the deductions it draws therefrom, the Danyille newspaper takes exceptions in cart as follows:

In the cution of this effort to discredit of a gu prosecution of this entire. Martin, the

"Of course, all in any way familia: with the methods of the Richmond paper and who recall the senatorial campaign of four years ago under-stand that the headline was designed to create the impression that a mysterious combination or "machine" party in Vir. exists in the Democratic ginia and that Mr. Martin is the head and front of it."

No wonder the Danville contemporary is indignant. The bare idea of the existence of a Democratic machine in Virginia is so new and shock. ing it is not surprising that the merest suggestion of such a wicked institution should at once startle and entage the Panville newspaper.
